

SECURING YOUR IDENTITY IN THE DIGITAL AGE

Thank you for joining us for the webinar.

In this document, please find the links for the resources and content that we covered during the webinar. These resources have been categorized into the 6 steps that we have recommended to secure your digital identity. Hope you find this helpful.

1) USE SECURE PASSWORDS, MULTI-FACTOR AUTHENTICATION AND PASSWORD MANAGERS

- **CHECK OUT** the funny video on passwords with Jimmy Kimmel Live at https://www.youtube.com/watch?v=UzvPP6_LRHc
- With 60% of individuals admitting to not using password manager and reusing passwords, check out some of these reputable password manager at <https://www.cnet.com/how-to/best-password-manager-to-use-for-2020/>

2) REDUCE YOUR DIGITAL FOOTPRINT TO ABSOLUTE ESSENTIAL ACCOUNTS

- Discover your footprint linked to your email account using this tool: <https://www.deseat.me>
- Also reduce the tracking of information on your Google account by managing your settings at: <https://myactivity.google.com>

3) BEWARE OF PHISHING EMAILS, SMS & CALLS. DO NOT CLICK ON LINKS WITHOUT VERIFYING THE EMAILS

- Check out some of these handy tips to identify Phishing emails that Blue Phish has put together at <https://bit.ly/2zCDNn9>

4) CHECK YOUR PRIVACY SETTINGS

- To set privacy settings for iPhone - <https://www.youtube.com/watch?v=HoQFA2LqifM>
- To set privacy settings for Android- <https://www.youtube.com/watch?v=HoQFA2LqifM>

5) USE SECURE WIFI OR USE VPN WHILE USING PUBLIC WIFI

- Check out some of the best practices here- <https://www.bluephish.asia/index.php/blog-5/>

6) BE SECURE ON YOUR VIDEO CONFERENCING CALLS

- Check out some of these secure practices at <https://www.bluephish.asia/index.php/zoom-in-on-security/>
